AT A GLANCE

A 33-person electric company that had medical, dental, and vision. They lacked all other benefits. Our program appealed to them as they wanted to enhance their offering and were unhappy with the service they were receiving. We were able to not only add the program to their offering but we were also awarded all the benefits based on our total solution and access to benefit admin systems to automate onboarding and reduce work for terminations and new hires.

AT A GLANCE

A 183-person consulting firm that had medical as well as almost all other benefits. They were very intrigued by the program and the large tax savings they would receive. While they were happy with their current broker, they wanted to learn about anything that could help their employees. While they did not want to leave their current broker, they did implement the program with us and put into place a very robust gap plan to create a minimum out-of-pocket medical plan with coupled with this gap plan.

AT A GLANCE

A 283-person construction company. They had no medical and had a problem with retaining employees. They did not offer a full medical, only a MEC plan at a cost to the employee. They have a high turnover, which has caused other issues as well. In putting the program in place, we were able to wrap the MEC medical plan into the coverage and reduce the costs to actually increase the employee's paycheck as well as give them other options to choose from for their families.

School District Case Study

OVERVIEW

We worked with a school district that had 786 employees. We worked with the district to obtain payroll data. One of the challenges of this district is there were over 10 different pay cycles employees were paid on. This created some difficulties that we quickly figured out. This district does pay FICA tax on employee wages. In the end, we were able to save this district a significant amount of money for both the employees and the district itself while delivering a great benefit in our Amaze Health platform at no net cost to the employees or employer.

SOLUTIONS

Employer Savings

With the 676 employees who qualified for the program, we saw first-year savings in excess of \$309,000 a year and \$25,000 per pay period.

XXXXXX Schools - 676 Qualified Employees			
Potential Annual Savings	\$	309,925.72	
Total Pre-Tax Premium	\$	485,417.71	
Company Gross Savings	\$	40,451.48	
Less Admin Fee	\$	(14,624.33)	
NET Savings Per-Pay-Period	\$	25,827.15	

Employee Savings

The employees also benefited with an average increase of \$47.40 per pay period and over \$1,232 a year in increased pay. While only 83% of employees qualified, this is expected in a rural district with many part-time and low-paid employees.

Below you can see an example of an employees paycheck and the increase in pay recieved based on the averages of this case in the graphic to the right.
